

5TH ANNUAL PRODUCTION BULL SALE
12.8.23 • 1 PM MST • AT THE RANCH SOUTHEAST OF ALLIANCE, NE

RAISED IN OUR ENVIRONMENT TO THRIVE IN YOURS

HAGUE ANGUS RANCH

History

If it interests you, keep reading for a little history of the ranch and my roots as a cow calf producer in western Nebraska.

The name Hague comes from the original settler of the land during the Homestead Act that we are now on. There is not a lot of information about him, other than his name was Hague and the Peterson brothers, my Great Grandpa and Uncles, acquired the land in the early 1920's.

The Peterson brothers split the 100,000 acres into four individual places. The land that Gust and Flossie (Great Grandparents) got was comprised of the Miles, the Gentle, the Kickin', and the Hague. My grandma had a sister that led to another split of the land. Martha and John (grandparents) got the Kickin' and the Hague; her sister and family got the Gentle and the Miles.

My grandpa John and Dad incorporated, forming 9 Over 9 Cattle Company in the 80's which came fully under my dad's control in 1985. Half of that is now Hague Angus Ranch.

The Hague Ranch has been around for even longer than the Peterson's and my family in the Sandhills. We were just fortunate and blessed to have acquired it many years ago. Grandpa through the 1960's and 1970's had Hereford's. Dad introduced Red Angus and Simmental in the 70's (my dad got good at pulling calves). After doing percentage cattle for a number of years, my dad bought his first Angus bull in 1986. We haven't turned back since.

Luckily my dad did not follow the fads too much, and didn't get caught up in the numbers and growth. A lot of milk and growth made sense when you calved in January and fed your cows every day with a mixer wagon. My dad saw the light though and started moving calving dates back to late March and feeding the cows out on range. When he started pulling the groceries, he saw more opens, mastitis, and overall problems. He knew his cows got too big and had too much milk, which is when he took his first step in the right direction and visited Tim Ohlde.

That was in 1998. He knocked out some frame and added efficiency from 1999 to 2007. Well, that is when I got back to the ranch from college and wanted to take things even further down the low input grass genetic road. I have maintained the body type that my dad proved to work. All I did was fine tune the genetics and bring registered cattle into the operation, but believe me, papers never changed the way we run them. And there still ain't a bit of sympathy for the ones that aren't working for us!

In recent years, my brother and I, along with our families and on good terms, have divided the ranch that Dad and Mom took over from my grandparents. Dad, Justin, and I are the only remaining family members on the land from the original 100,000 acre – four Peterson brothers ranches. All this history has led to the formation and creation of Hague Angus Ranch. I am a 5th generation rancher on this place and hopefully, with God's direction and grace – will continue on through my kids as the next generation.

RAISED IN OUR ENVIRONMENT TO THRIVE IN YOURS

HAGUE ANGUS RANCH PRODUCTION BULL SALE

FRIDAY, DECEMBER 8, 2023 • 1 PM MST
At the Ranch southeast of Alliance, NE

SALE DAY PHONES:

Josh Freiberger Cell.....308.760.1664
Justin Freiberger Cell.....308.760.2761

SPECIAL REPRESENTATIVES:

Matt Lowery.....Auctioneer.....308.750.6119
Chris Buetler.....Livestock Digital.....402.380.8244
Cody Nye.....Midwest Messenger.....308.760.8588

DIRECTIONS:

On Kansas Street truck bypass go to CR 59, turn south and go 7 miles, east 1 mile, south 6.5 miles to Rd 128, then east 4.5 miles to my drive way. Signs will be posted. Or scan the QR Code located on the back of the catalog for Google maps directions on your smart phone. We will have someone drive to town and be at Maver-ick truck stop at 10am to lead folks to the ranch if you want to play it safe and follow them to prevent getting lost.

LUNCH:

Lunch will be provided from 11:30 to 12:30 on sale day before the sale.

HERD HEALTH:

The bulls have a complete vaccination record, and they will be fertility tested and guaranteed sound by Dr. Anthony McClary DVM and Dr. Calvin Tolstedt DVM of Alliance Animal Clinic in Alliance, Nebraska. Vet Phone: 308.762.4140

SALE DAY PHONE LINES:

There is not cell phone service, but WIFI calling on your phone will be available as well as a land line for use at the house or in the shop.

ACCOMMODATIONS:.....Ph: 308.761.0970
Quality Inn & Suites.....Ph: 308.762.7600

AIR TRAVEL:

Alliance Airport does have connecting flights from DIA. Scotts-bluff Airport is 1.5 hour drive from the ranch. DIA is 4 hour drive and Rapid City Airport is 3 hours away. I recommend DIA and car rental.

BIDS:

Bids can be left with Any special reps or with any contacts as well as the live stream with DV Auction services.

Josh and Josie Freiberger
13702 Rd 130
Alliance, NE 69301

RAISED IN OUR ENVIRONMENT TO THRIVE IN YOURS

Raised in our Environment to Thrive in Yours is not just a catch phrase, it is a reality. At the ranch we have a no mercy policy that resembles that of a low input commercial cow calf producer, rather than that of a typical seed stock producer.

We are commercial cowmen and treat everything here as so. Longevity is the single most profitable trait in cow calf operations, but most leading bulls in the country or the major stud catalogs are out of cows that have only had 4 or 5 calves or less. The matriarch dams at Hague Angus like 912, 708, 443, etc. stuck around until they were 14 or more years.

Our environment sorts for us, and not a computer generated program full of algorithms. Cattle here are not fed up and flashy, but hardy and built to last. There aren't any silage piles or ethanol plants around our place. So why on earth would I rely on that for a long-term feed source?

We are just shy of 4000ft elevation with a 10-12 inch rainfall average. However, from 2002 through 2012 we averaged 5.2 inches of rain. Another downfall here is getting trees to grow. There are Zero trees on our place except for the homestead locations. We get 105 in the summer and can have wind chills as low as 60 below. The girls stay out on pasture year-round being fed Rio Nutrition mineral tubs, Hay and fresh water.

We believe in the hidden values of beef production. While most worry about how much their calves weigh, I care far greater for Longevity, fertility, Feet, Structure, Environmental adaptability, and efficiency. We live in an area that takes about 26 acres to run a cow. Our hills are made up of very fine blow sand and high alkaline ph, which leads to poor quality forage. The land here is very fragile and moves quick in a steady wind causing erosion very fast.

The good Lord blessed us with this little corner of the earth and we will continue to operate it and improve the things we can control. Which are heal the land, make hardy adaptable Angus cattle, and serve you as our customer to increase your success and simplify your life in the process.

- Josh

Sale Information

LOT NUMBERS

Ear tags correspond with numbers in catalog.

FEED TEST

Ryan and Brooke Amateis fed the bulls with a target gain of 2.25 pounds per day on a high roughage ration near Bridgeport, Nebraska. They do a great job of growing the bulls and not getting them fat, to ensure structural soundness and longevity for our customers. They were fed for 120 days and anything that didn't fit the mold was cut in the spring.

PRE-REGISTER TODAY!

Register on sale day at the door for your bidding number and if not attending I'll get you one and bid with someone on the phone. Or register at DV Auction and bid online. We will make sure your taken care of any way we need to.

VOLUME DISCOUNT

Hague Angus Ranch offers 3% off each bull if three are bought. 4% off each bull on four. And on up to 8% on eight bulls. For example: You buy 6 bulls for a \$4500 average, that's 6%, so you get \$270 off each bull. Max of 8 bulls, so if bless your heart you buy eleven bulls, then it is still the 8% off each bull.

DELIVERY

FREE DELIVERY on bulls to central points within 500-mile radius from Hague Angus Ranch. Beyond 500-mile radius, we will work with friends and fellow breeders to get your bulls to you for a very reasonable and fair rate at a convenient time for ourselves and the purchaser of the bull/bulls.

HAULING DISCOUNT

Take your bulls home on sale day and get \$100 off per bull.

WINTERING ARRANGEMENTS

Bulls will be delivered after the sale. Wintering option is available on sale day. We will feed until March 1 for an additional \$300 that will be added on to bull purchase on sale day and will be delivered in March.)

2/3 INTEREST & FULL POSSESSION

Hague Angus Ranch is retaining one-third revenue sharing semen interest all bulls. Full possession and full salvage value to new owner.

LOSS OF USE POLICY

Hague Angus Ranch does not guarantee bulls; however, we deal with guarantees on a case by case basis. We do have contacts for Livestock Insurance Agencies for Mortality, Loss of Use, Etc. that is available and affordable. If you would like to insure your bull, we will put you in touch with them.

DNA through Neogen will be provided on sale day.

Videos will be available on DVAuction.com

This is a very special bull. There are only 2 of his kind in the world. Partnered on a flush and Gene Temperley has the other. A direct 707 son out of a Pinebank 4197 daughter (full sister to 202). Owned with Springlake Angus. This bull is truly going to be something special. We are selling ½ semen interest and no possession. We have hopes this bull will be used widely in commercial herds and have had semen orders already. He collected over 200 units in less than a week at 11 months old at NBS in McCook of high quality semen. Don't miss this opportunity to get in on a very special female making machine that has as good of profile as any bull I have ever bred. **Large Heifers and Cow bull**

This mating just flat kicked butt. His dam is 3035 (owned with Hould Angus) is a full sister to Paxton. Big middled, big hip, but smooth as glass and everyone who sees him puts a star by him in the notes. All the heifers and clean up with him also. I will collect this bull more than likely. **Heifer safe.**

The first of two ET Ripper brothers on the sale. The right kind of muscle and shape. I honestly am foolish for not keeping at least one of them. The 2261 cow is a deep soggy made cow that flushed well and now resides in Illinois at my friend Andy Huffington's farm. Keep all his daughters. Cow bull

This Ripper is a stud all the way and a favorite from day 1. Him and 217 are peas in a pod as they should be. Brothers like these make it hard to justify an AI program. Just kick these studs out with cows for the next 5 years and take a vacation during your typical AI season. Legit herd bull. Cow bull

Did I say the 6RD1 bulls make good females yet? They do and this one is out of an amazing Howrey bred female. This is fertility and longevity at its finest. I love this pedigree and every daughter will be the cowman's kind. I can't wait to see his dam when she is 18. Large Heifers and Cows

Deep for days and soggy prick. Super good dam with great performance and fleshing ability out the wazoo. Peas in a pod with 240 and 241. Save the time AI, and just kick these brothers out and know you'll have a rocking set of calves that check every box for making money! Large heifers and Cows

A very moderate female here. Reduce frame and impact the traits that lead to trouble free cows that save you time and money. There is always talk of pounds per acre versus pounds per cow. Increase the per acre deal with females like he'll create and make life more tolerable. Large heifers and Cows

Dam is a ¾ sister to 202 that has been popular across the country. This bull is backed by the best walking critters on my place. Very masculine and lots of testosterone here. He is the kind of bull that will cover a hell of a lot of females in a season. Large Heifers and Cows

SECOND BRAIN...

The gut is the largest immune organ in the body and considered the second brain.

GUT-BRAIN CONNECTION

Gut health along with immune support need to be part of the conversation in all nutrition plans.

STRESS HAPPENS

Learn how we can help minimize stressors on cattle at all stages of life.

CF²⁰ COATING TECHNOLOGY

Ask us how our coating technology is similar to a chocolate chip cookie.

REPRODUCTION

Ask us how our products can positively impact hormones that influence fertility.

MAXIMUM PERFORMANCE.

STARTS WITH THE GUT.

ARE YOU GETTING **TOP PERFORMANCE?**
